

Employees Enjoy Savings Of 25% on Group Home and Auto Insurance

Are Your Employees Taking Advantage of This Program?

Action Insurance Group has developed a member benefit program for personal home and auto insurance. This is strictly a voluntary program where eligible employees are simply invited to call in and compare their current home and auto insurance costs to the rates available through our group program. This creates a great no-cost benefit for your employees that in most cases will result in savings of hundreds of dollars.

Contact our office for brochures, posters PDFs, or any additional information you may require. We will also customize all materials with your own company logo if you prefer.

Action Insurance Group brings over 20 years of expertise and knowledge in group programs across Canada. Our company takes pride in offering the most competitive products with personalized service not often available with other group providers.

Call for a no-obligation quote and start saving money today!

This program is available in all provinces where applicable except where government run auto insurance programs are mandatory. Please contact our office with any questions on availability in your area at 1-866-457-4555. Some provinces with government auto programs are still eligible for the residential insurance products.
