

# Propane is *Energy for all*

Propane is a Canadian energy source, produced in Canada, for Canadians, from coast to coast

## Used daily by 100,000's of Canadians

from heating homes, drying crops, powering forklifts to transporting children to school.

### Propane is affordable

Saving you money – up to **45% cost savings**

Efficient, with furnaces running as much as **98% efficiency** compared to oil furnaces at 60%

Zero risk of contamination, **lowering insurance bills**

### Propane is accessible

Highly **portable** and **versatile**

**Unmatched in distribution infrastructure** across Canada

**Perfect for rural and remote locations**, delivered and stored in a tank without deterioration

Ideal for critical infrastructure like hospitals. **It continues to work, even when the electric grid fails**

### Propane is clean

**Recognized by governments globally as a low-carbon energy** that improves indoor and outdoor air quality and reduces GHG emissions.

A lower emission energy source than heating oil, diesel, and gasoline, and in some regions, **propane is even cleaner than the electrical grid.**

**Renewable** – propane made from 100% renewable materials is already being produced in Canada, the U.S. and Europe.

# Regional Statistics

## Ontario

Annual economic value created by the industry

**\$1.02 B** GDP in 2018

Number of households using propane as a main energy source

**62,733**

Annual taxes and royalties paid by the propane industry

**\$394 M**

Number of jobs that rely on the propane industry

**6,549**

Number of propane fuelling stations

**97**

### Propane production by region

(thousands of barrels per day [kb/d])

- British Columbia
- Alberta
- Saskatchewan
- Manitoba
- Ontario
- Quebec
- Atlantic
- North

### Propane demand by sector in 2020

- Commercial / Institutional
- Non-energy use & producers' consumption
- Residential
- Transportation
- Mining & oil and gas
- Agriculture
- Manufacturing & construction

### Did you know?

The largest number of homes in Canada that rely on propane as a main energy source occurs in Ontario, mainly for space and water heating, clothes drying and heating pools. The number of homes using propane is expected to increase over the next few years.
