

# Propane is *Energy for all*

Propane is a Canadian energy source, produced in Canada, for Canadians, from coast to coast

## Used daily by 100,000's of Canadians

from heating homes, drying crops, powering forklifts to transporting children to school.

### Propane is affordable

Saving you money – up to **45% cost savings**

Efficient, with furnaces running as much as **98% efficiency** compared to oil furnaces at 60%

Zero risk of contamination, lowering **insurance bills**

### Propane is accessible

Highly **portable** and **versatile**

**Unmatched in distribution infrastructure** across Canada

**Perfect for rural and remote locations**, delivered and stored in a tank without deterioration

Ideal for critical infrastructure like hospitals. **It continues to work, even when the electric grid fails**

### Propane is clean

**Recognized by governments globally as a low-carbon energy** that improves indoor and outdoor air quality and reduces GHG emissions.

A lower emission energy source than heating oil, diesel, and gasoline, and in some regions, **propane is even cleaner than the electrical grid.**

**Renewable** – propane made from 100% renewable materials is already being produced in Canada, the U.S. and Europe.
