

Propane is Energy for all

Propane is a Canadian energy source, produced in Canada, for Canadians, from coast to coast

Used daily by 100,000's of Canadians

from heating homes, drying crops, powering forklifts to transporting children to school.

Propane is affordable

Saving you money – up to **45% cost savings**

Efficient, with furnaces running as much as **98% efficiency** compared to oil furnaces at 60%

Zero risk of contamination, lowering **insurance bills**

Propane is accessible

Highly **portable** and **versatile**

Unmatched in distribution infrastructure across Canada

Perfect for rural and remote locations, delivered and stored in a tank without deterioration

Ideal for critical infrastructure like hospitals. **It continues to work, even when the electric grid fails**

Propane is clean

Recognized by governments globally as a low-carbon energy that improves indoor and outdoor air quality and reduces GHG emissions.

A lower emission energy source than heating oil, diesel, and gasoline, and in some regions, **propane is even cleaner than the electrical grid.**

Renewable – propane made from 100% renewable materials is already being produced in Canada, the U.S. and Europe.

Regional Statistics

Manitoba

Annual economic value created by the industry

\$86M GDP in 2018

Number of households using propane as a main energy source

4,235

Annual taxes and royalties paid by the propane industry

\$24M

Number of jobs that rely on the propane industry

474

Number of propane fuelling stations

53

Estimated government revenues generated by type

(\$ millions)

- **\$32** Transportation
- **\$18** Other
- **\$14** Oil and gas
- **\$11** Wholesale trade
- **\$7** Financial services
- **\$4** Manufacturing

Propane demand by sector in 2020

- Non-energy use & producers' consumption
- Mining & oil and gas
- Commercial / Institutional
- Agriculture
- Residential
- Transportation
- Manufacturing & construction

Did you know?

Propane powers rural and remote communities across Canada? In Churchill for example, over 80% of homes rely on propane for heating.
