

Propane Powers Canada

Reliable. Affordable. Cleaner. Propane powers everyday life for millions of Canadians - strengthening energy security and lowering emissions.

Canadian Propane Association

Association canadienne du propane

Propane strengthens energy security

- **Growing** domestic propane production
- **Essential** for hospitals, farms, businesses, and rural, remote, and Indigenous communities where options are limited
- **Supports resilient energy systems** during emergencies and extreme weather
- Delivered nationwide through a **reliable supply chain**

Propane delivers lower emissions

- **Lower emissions** than heating oil, diesel and gasoline
- Recognized globally as a **lower-carbon alternative** to higher-emitting fuels
- **Compatible with hybrid power systems** and renewable electricity
- Canadian-made **renewable propane is a drop-in fuel** that lowers lifecycle emissions using existing propane infrastructure.

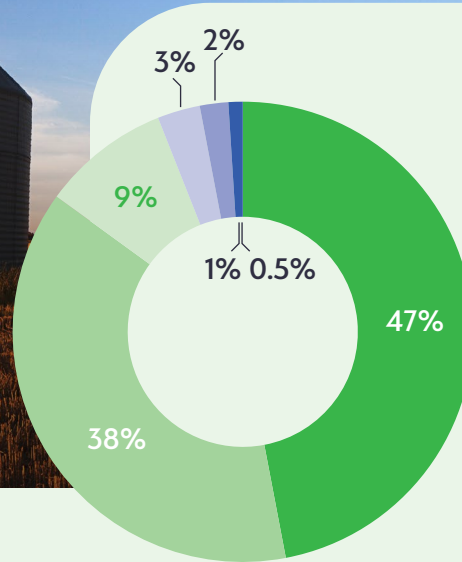

Propane protects energy affordability

- Significantly **more cost-effective** than diesel in numerous applications
- Propane furnaces with **efficiency ratings up to 97%**
- **Lower maintenance costs** than oil heating systems
- No soil contamination risk, **reducing environmental liability costs**

Did you know?

Propane supply hub

An 800% increase in propane production since 2007 has shifted Saskatchewan to be a significant supplier in Western Canada's NGL supply chain and increase energy security.

Propane powers agriculture

Propane is essential to Saskatchewan agriculture, powering grain drying and barn heating to protect crops, livestock, and ensuring food security during extreme weather in Canada's leading grain producing province.
